

ANKIT KUMAR

Software Engineer | Web Development • Automation • Python | B.Sc. (Hons.) CS & Data Analytics, IIT Patna — CGPA: 9.41/10

+91 8092316838 | Ankitchushwaha.ank@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Third-year B.Sc. (Hons.) Computer Science and Data Analytics student at IIT Patna (CGPA: 9.41/10), focused on software engineering roles in web development, automation, and Python programming. Independently architected and shipped two live client platforms and a self-built voice-AI mobile assistant, together serving 2,000+ active users with real transactions. Comfortable across the MERN stack, PHP, and Django; currently building with Flutter for cross-platform mobile. Selected for an internship at ISRO (yet to commence). Seeking a Software Engineering internship / full-time SDE role.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, PHP, HTML5, CSS3, Dart (learning)
- **Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Django, Flutter (in progress), REST API design
- **Databases:** MongoDB, MySQL, PostgreSQL, Firebase Realtime DB, Firestore
- **Automation & Scripting:** Python automation scripts, task/workflow automation, cron-based jobs
- **Cloud, DevOps & Tools:** Google Cloud Platform, Vercel, Hostinger, GitHub, CI/CD, Postman, VS Code, Linux, Git, Android Studio
- **Concepts:** System design fundamentals, database management systems, agile development, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer — Netpar.in (Client Project)

Jan 2025 – Present

PHP, HTML/CSS, MySQL, PostgreSQL, REST APIs | Hosted on Hostinger | netpar.in

- Architected and delivered a production social media and e-commerce platform independently — user authentication, social feed, product listings, cart, and checkout — serving 1,000+ active users with verified real-money purchases.
- Designed a normalised PostgreSQL schema for users, posts, products, and orders; optimised queries, cutting average page load time by ~30%.
- Owned the full project lifecycle — requirements, architecture, deployment pipeline, DNS configuration, and client communication — with zero third-party developer involvement; now extending it to Android/iOS via Flutter.

Full Stack Developer — Heritage Threads (Client Project)

Apr 2025 – May 2025

MERN Stack (MongoDB, Express.js, React.js, Node.js) | Vercel

- Delivered a full production e-commerce site for a Maithili art seller — product catalogue, cart, order management, and Razorpay payment integration — within a 4-week timeline.
- Built a RESTful Node.js/Express API with JWT authentication; integrated MongoDB Atlas for cloud-hosted data persistence, deployed on Vercel with GitHub CI/CD.

PROJECTS

Voice-First AI Assistant App — Personal Project

2025 – Present

Mobile app, voice/NLP interface, task automation | 1,000+ active users

- Built and launched a voice-focused AI mobile agent that acts on the user's behalf: proactive reminders, sending messages to friends, and placing product orders via voice command.
- Bundled everyday mini-apps into one assistant — to-do list, milk diary, udhaar (credit) book, and link saver — growing to 1,000+ active users.

IITP Companion — Student Web Portal (Capstone Project)

Jan 2025 – Apr 2025

Django, JavaScript, HTML/CSS | github.com/ankitchushwaha-ank/iitpcompanion

- Built a unified campus portal for IIT Patna — academic updates, real-time bus tracking, quizzes, and event listings — using a Django ORM relational schema and REST endpoints; actively used by students across multiple batches.

EDUCATION

B.Sc. (Hons.) Computer Science and Data Analytics — IIT Patna

2024 – 2028

- CGPA: 9.41/10 | Coursework: Data Structures and Algorithms, Database Management Systems, Software Engineering, Data Analytics, Machine Learning

Intermediate (12th), Science with Mathematics — UMS Donwar, West Champaran, Bihar

- Percentage: 81%

ACHIEVEMENTS, INTERNSHIPS & CERTIFICATIONS

- **Selected for an internship at ISRO** (commencement pending).
- Participant, GSSoC (GirlScript Summer of Code).
- Team Lead, Hack n Tech Hackathon, IIT Patna — led a 5-member team to deliver a complete working solution (May 2025).
- Hackathon Participant, Hack 4 Brahma, Gauhati University — national-level competition (Dec 2025).
- Google Student Ambassador, Google / IIT Patna Campus (Aug–Dec 2025) — promoted Google developer tools and Cloud programs; organised technical workshops for 100+ students.
